SUMMARY

Full Stack Developer with 1+ years of experience building scalable web applications using modern technologies. Proficient in both frontend and backend development, API design, and cloud deployment. Adept at writing clean, secure, and maintainable code with a strong understanding of performance optimization and user experience. Actively seeking challenging roles in dynamic, product-driven environments.

SKILLS

Languages: TypeScript, JavaScript , C , C++ , Java , Python
Frontend: React.js, Vite, Tailwind CSS
Backend: Node.js, Express.js, Hono
Databases: NeonDB, MongoDB, SQL, Prisma ORM
DevOps/Tools: Vercel, Cloudflare Workers, Cloudinary, JWT, REST APIs, Prisma Accelerate
Development Areas: Full-Stack Development, Scalable Architecture, Secure Auth Systems

PROJECTS

ShareIt - Modern Blogging Website ShareIt *Jan 2025 - Feb 2025*

Technologies: React (Vite), Hono, Prisma, NeonDB, Cloudflare Workers, Cloudinary, TailwindCSS, JWT, Vercel

- Full-Stack Development: Built modern blogging platform using React (Vite) frontend and Hono backend on Cloudflare Workers
- Database Architecture: Designed Prisma schemas with NeonDB for blog posts, user management, and content organization
- Authentication System: Implemented JWT-based authentication with bcryst password hashing and session management
- Content Management: Developed rich text editor with CRUD operations for blog creation, editing, and deletion
- Cloud Integration: Integrated Cloudinary for optimized image storage and content delivery
- Performance Optimization: Implemented Prisma Accelerate for enhanced database performance and caching
- Security Implementation: Added rate limiting, input validation, and security measures for production deployment
- Responsive Design: Created mobile-first UI with TailwindCSS and SEO optimization

QuickPay - Digital Payment Platform QuickPay *DEC 2024 - JAN 2025*

Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Vercel

- Full-Stack Development: Built full-stack application using React.js frontend and Node.js/Express backend for secure digital payments
- Database Architecture: Designed MongoDB schemas for user management and transaction data
- Authentication System: Implemented JWT-based authentication with bcrypt password encryption
- API Development: Created RESTful APIs for efficient user operations and money transfers
- Responsive UI Design: Developed mobile-first, responsive UI using Tailwind CSS including theme toggle feature
- Deployment & Configuration: Deployed application on Vercel with environment configuration and CORS setup

EDUCATION

Bachelor of Engineering (B.E.) *OCT 2023 - MAY 2027*
MS Ramaiah Institute of Technology, **9.40 / 10.00**

LANGUAGES

- **Hindi:** C1 – Professional
- **English:** B1 – Intermediate
- **French:** A1 – Beginner
